Hope, I'm attaching the spreadsheet with the data used for the report. There is a separate tab for each update. This does include the team that provided the data (which is not on the external web page.) Updates are posted here:

https://www.tceq.texas.gov/response/tpc-incident/air-quality-monitoring-tpc-port-neches-incident

Yes. Like a PDF or Excel spreadsheet. Can you point us in the right direction?

Hope, are you referring to the files we've been posting? I don't have access to the raw data.

Renee

Renee – Could you help me get the air monitoring data from our website to Adam Adams with EPA also? We are trying to include it in a public health consultation with the CDC/DHSH.

Thanks for copying me. Ryan Vise told me the EPA story map was in the works. Is there any estimate on when that will go live?

I am looking for a contact with TCEQ to set up a method for TCEQ to share data as we did at the previous incident so we can load it to our Story Map. I am cc'ing Eric Delgado who would be our POC for this. Thanks
